sharpsafe

5th Generation Product Data Sheet

1L

Product Code:

5160XXXX

Please note the last four digits denote the specific aperture type and lid colour.

Our Sharpsafe containers are specifically designed to enable the safe disposal of clinical sharps and minimise the risk of associated injuries.

Our 1L is ideally suited to use both in hospitals or in a community setting. The 1L has two apertures, one of which provides an open aperture for the disposal of used sharps, the other contains a needle removal feature.

Available with different colour lids for easily identifiable waste segregation. Products come with a range of compatible accessories for increased stability, security and safety.

Sharpsafe's new 5th Generation containers launched in 2022 and were the world's first full range of sustainable single use sharps containers. Engineered using low carbon footprint recycled material showing our commitment to championing change.
