

# + An absorbent<sup>1</sup> dressing for the management of light-to-moderately exuding wounds

MELOLIN<sup>◇</sup> Dressing helps protect the wound from physical contaminants.<sup>2</sup>

## Smith+Nephew

MELOLIN<sup>◇</sup>  
Low Adherent Absorbent  
Wound Dressing

[www.smith-nephew.com/melolite](http://www.smith-nephew.com/melolite)

MELOLIN<sup>◇</sup> Low Adherent Absorbent Wound Dressing consists of an absorbent<sup>1</sup> cotton and polyester fibre pad which is heat bonded to a thin low adherent perforated polyester film.

## Features and benefits

### Designed to be low adherent and absorbent

MELOLIN Dressing is designed to be low adherent and absorbent.<sup>1</sup>

### Protects the wound<sup>2</sup>

MELOLIN Dressing has a long history of medical use<sup>3,4</sup> and protects the wound from physical contaminants.<sup>2</sup>

### Water repellent backing<sup>5</sup>

MELOLIN Dressing has a water repellent backing, which minimises fluid strikethrough whilst dressing is in place.<sup>5</sup>

### Non-sensitising<sup>6\*</sup> and breathable<sup>7</sup>

MELOLIN Dressing is non-sensitising<sup>6\*</sup> and allows the skin to breathe.<sup>7</sup>

### Remains integrity when cut<sup>8,9</sup>

MELOLIN Dressing is easy to cut to shape and retains its integrity when cut.<sup>8,9</sup>

## Compatibility

MELOLIN Dressing can be used in conjunction with OPSITE<sup>◇</sup> FLEXIFIX, OPSITE FLEXIFIX Gentle and OPSITE FLEXIGRID.<sup>9,10</sup>

## Indications

For the management of a wide variety of light-to-moderately exuding wounds including clean sutured wounds, abrasions, lacerations and minor burns.
