LIST OF COMPONENTS	1	VIAL SPIKE W/CLAVE®	POLYCARBONATE ABS (NON-FLUID PATH) PTFE (NON-FLUID PATH) POLYESTER (PBT) (NON-FLUID PATH) SILICONE SILICONE LUBRICANT ACRYLIC		
MATERIAL COMPLIANCE AND BIOCOMPATIBILITY	This product is made of non-latex, and non-DEHP components. Product has met the requirements of ISO 10993-1 and related standards for biocompatibility.				
PRECAUTIONS	Use aseptic techniques. Single-use only – Do not resterilize. Sterile, Non-Pyrogenic fluid pathway in unopened, undamaged package.				
LABELS AND DIRECTIONS FOR USE	Label and/or DFU contain information for proper use including any warnings or contraindications. Labels are applied on the individual package and on the outside of the cardboard box. Each sales package contains a Direction for Use where applicable.				
PACKING AND PACKAGING	The non-unit packaging is biodegradable as defined by Directive 94/62/EC. Packaging met the requirements of BS EN ISO 11607. The packaging for this product is Latex Free. This item is blister packed or pouched individually using medical grade materials.				
TRACEABILITY	Lot number provides full traceability of all components and manufacturing processes.				
STORAGE	Store in a dry and clean place. Product should be retained in packaging until ready for use.				
DISPOSAL	The user must dispose of the device according to hospital disposal policy.				
PRODUCTION AND ENVIRONMENT CONTROLS	<ul> <li>Product is manufactured in an environmentally controlled room. Floor, surfaces, and environment are monitored according to quality procedures.</li> <li>Each component is inspected during acceptance (example: visual; dimensional; functional) to verify conformity with the requirements according to quality procedures.</li> <li>Production and release specific tests are performed according to quality procedures.</li> <li>Limulus amebocyte lysate (LAL) testing is performed on production samples to verify conformity of the endotoxin charge according to quality procedures.</li> <li>Rieburden tests are performed on production samples to verify conformity of the endotoxin charge according to quality procedures.</li> </ul>				
	Bioburden tests are performed on production samples to verify conformity of the microl charge according to quality procedures.				
	Qua	ality System complies to:	ISO 13485:2016		
QUALITY SYSTEM AND PRODUCT CERTIFICATION		Product Certification:	The product is manufactured in compliance to Council Directive MDD 93/42/EEC as amended.		
		CE Certificate Number:	252.1002		
		Notified Body:	NSAI National Standards Authority of Ireland.		
	МС	DD Device Classification:	Class I Sterile
