Product:

Connecting tube with drainage bag connector

Product Code:

CTU14.0-30-ST
CTU14.0-50-ST

DIMENSIONS

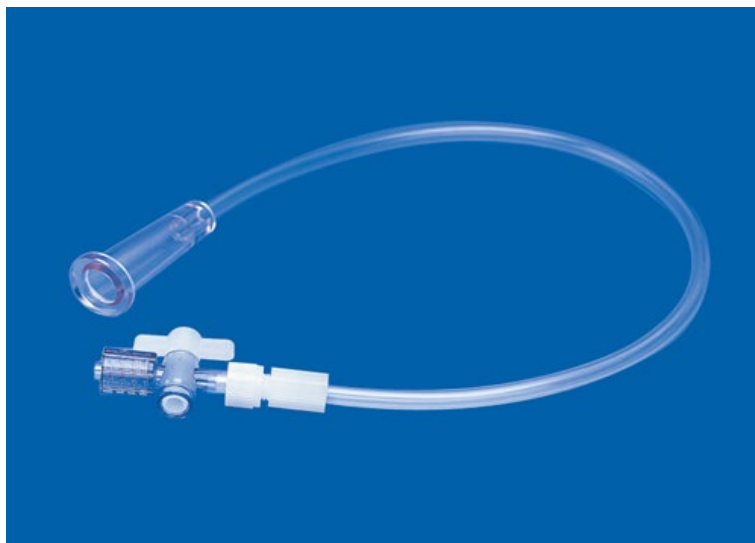

CTU14.0-30-ST

- Size – 14Fr
- Length – 30cm

- Connections: Stopcock

CTU14.0-50-ST

- Size – 14Fr
- Length – 50cm
- Connections: Stopcock

Picture**Components:**

Connecting tube

Drainage bag connector

Description:

The one way stopcock allows control of drainage flow during drainage pouch exchange

Intended use:

Used for connection of external drainage catheter to drainage pouch.

Contraindications:

None Known

Precautions:

None Known

Recommended storage instructions:

Store in a dry location, away from temperature extremes

Patient contacting materials	N/A
