

# Malleo Dynastab

## Ergonomic design

Well-considered design combines wearer comfort and effective performance.

## Environment

We take into account the patient as well as the environment.

## Comfort

The quality of our products shows itself in the level of comfort experienced.

The combination of a rigid lateral splint and the unique strapping system provides optimal support. The patented metal reinforcement does not apply pressure to the malleolus. The breathable material ensures a high level of comfort, and the brace is easy to wear inside a shoe. The ankle brace is universal for use on both the left and right sides.

## Indications:

- (Chronic) laxity of the ankle ligaments
- Status post ankle sprain / strain
- Ankle ligament rupture
- Post-traumatic, postoperative ankle complaints
