

## evercare<sup>®</sup> Adhesive I.V. dressing, sterile

REF: 4640

evercare<sup>®</sup> Adhesive I.V. dressing is a sterile wound dressing for securing peripheral vein cannula fixation on insertion site. The dressing is air - and moisture vapour permeable. Adhesive I.V. dressing is made of water repellent non-woven carrier material, with attached absorbent pad. The absorbent pad is layered with semi-permeable net with non-adherent properties which also hinders absorbed exudate to leak. The extra absorbent pad included into the pouch allows securing of lateral vein cannula without extra pressure on skin. Design of release-papers enables user to handle and attach the dressing on the insertion site using one hand.

### Key Features

- ▶ Sterile, sterilized by ETO
- ▶ Soft and flexible, extra absorbent pad
- ▶ High breathability
- ▶ Elastic non-woven carrier material with acrylic adhesive
- ▶ Single packed in paper peel-pack pouch

## Regulations

The product complies with legal requirements for medical devices. EO sterilized according to valid version of ISO 11135 standard.

**REACH regulation:** The products covered by this data sheet do not contain substances classified as carcinogenic, mutagenic or toxic for reproduction (CMR), including any of the Substances of Very High Concern (SVHC) as listed in the latest available version of the Candidate List published by European Chemicals Agency (ECHA).

**Biological evaluation:** EN ISO 10993-5  
EN ISO 10993-7  
EN ISO 10993-10  
EN ISO 10993-11

**Compliance with legal requirements:** Medical Device Regulation (EU) 2017/745, MDR class IIa

**Compliance with product standards:** EN ISO 11135, EN ISO 11737-1, EN 13726-2

**Quality standards:** EN ISO 13485

**Label information and packaging compliance:** EN ISO 15223-1, EN ISO 20417, EN ISO 11607-1

## Material

Product Part	Raw Material & Characteristics
Carrier	100% polyester, nonwoven spunlance, water repellent, white
Coating	Pressure sensitive glue, thermosetting acrylic solution polymer, latex free
Absorbent pad	70 % viscose, 30 % polyester and non-adherent porous PE film, white
Release paper	Coated paper, white

## Warnings & Recommendations

<b>Warnings</b>	The product is single use. If reused, the performance of product may deteriorate and cross contamination may occur.
<b>Storage Recommendation</b>	Recommended storage in clean, dry space between 15 - 25 °C. Products should be protected from direct sunlight, other intensive light sources and ozone.
<b>Disposal Recommendation</b>	Dispose in accordance with local regulations.
<b>Shelf Life</b>	3 years

## Packing Information

Package	Material	Size ( L x W x H ) mm
<b>Single Pack</b>	Medical grade paper, PP/PE film	126 x 85
<b>Dispenser Pack</b>	Carton, TCF or ECF quality	95 x 90 x 130
<b>Transport Carton</b>	Carton, TCF or ECF quality	380 x 600 x 280
<b>Packing Tape</b>	PVC-free, Transparent	N/A
