

MICRO-TOUCH[®] Nitrile Sterile

Performance Series

Nitrile, sterile pair packed, powder-free examination glove featuring extended cuff

This sterile glove is made from a synthetic, nitrile formulation that provides high elasticity with superior barrier protection and puncture resistance. It is an ideal solution for a range of sterile examination (non-surgical) procedures.

KEY FEATURES AND BENEFITS:

- Packed as a pair of gloves per pack
- 11.6" extended cuff for additional protection
- Textured fingers provide extra grip and reliability
- Protects from latex Type I allergy
- Tested for use with chemotherapy drugs*

* See product packaging or contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations

Recommended For

- Tested for use with chemotherapy drugs
- Sterile procedures outside of the O.R.
- Extra protection over the wrist and arm
- Sustained, high-risk examination procedures
- Protection from Type I latex allergy in HCW's or patients

FEATURED TECHNOLOGIES

MICRO-TOUCH[®] Everyday, Everywhere Protection

MICRO-TOUCH[®] premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.

MICRO-TOUCH[®] Nitrile Sterile

Performance Series
