

# MICRO-TOUCH® Sterile

P e r f o r m a n c e   S e r i e s

## Latex, powder-free, examination glove with superior comfort and grip

This sterile glove features an inner polyacrylate coating that creates a softer feel on the user's hands, while making donning easier even with wet hands.

It is ideal for sterile, examination procedures when a surgical glove is not required. Ansell's natural rubber latex formulation ensures a comfortable, well-fitting glove while extensive leaching phases ensure a very low residual protein content.

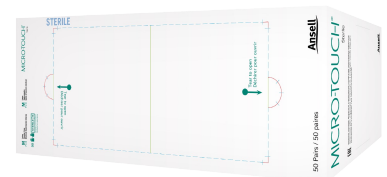

### KEY FEATURES AND BENEFITS:

- Textured fingers provide a safe and secure grip in wet or dry conditions
- Excellent tactile sensitivity and dexterity
- Packaged in pairs with a protective double wrapping

Caution: This product contains natural rubber latex which may cause allergic reactions including anaphylactic responses.

### Recommended For

- Sterile procedures outside of the O.R.
- Standard, moderate risk examination procedures
- Damp donning

## MICRO-TOUCH® Everyday, Everywhere Protection

MICRO-TOUCH® premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
