

## Embra® Surgical hood Anastasia

REF: 279803

Embra® Headwears are designed to help prevent foreign particles such as hair or skin scales falling from medical personnel into the wound during surgical interventions. These very popular surgical hoods come with different special features and designs, such as integrated sweatbands for additional comfort, or open design for easier dressing placed on the head instead of over the head. Embra® Surgical hood Anastasia operating helmet is especially designed for anesthetic staff, glasses users or those with limited hearing capabilities. The thin net over the ears makes it easier to hear each other in a noisy OR, it also makes it easy to use stethoscopes or place glasses. The hood is equipped with an extra-large sweatband for extra comfort. There is shoulder protection, a soft binding round the face and tie-band for individual fitting. Made in a soft and breathable viscose nonwoven material.

## Key Features

- ▶ Universal size
- ▶ Shoulder protection
- ▶ Integrated sweatband
- ▶ Specially designed for anesthetic staff
- ▶ Recommended to be used by persons with bad hearing
- ▶ Tie-band
- ▶ 80% viscose, 20% polyester meaning most of the materials are from renewable resources
- ▶ Viscose from sustainable forests (FSC-certified)
- ▶ Production moved from Asia to Europe to further reduce emissions
- ▶ High-performance headwear protects from falling skin cells or stray hairs
- ▶ Breathable and comfortable headwear
- ▶ Drapes easily
- ▶ Suitable for long shifts in the most intense surgical environments
- ▶ Tested for skin irritation, skin sensitisation and in vitro cytotoxicity according to EN ISO 10993
