SteriHero

My autoclave. My **superpower**.

 The autoclave is intended for use in veterinary medicine. It is not a medical device according to 93/42/EEC or EU 2017/745 (MDR).

Your new **superpower**

No matter what big tasks the day holds in store for you, **SteriHero Vet** has your back. That's because the brand new stand-alone autoclave was designed specifically for veterinary medicine: From the features to the price! Trendsetting technologies, an incredibly advanced display and the unique MELAG quality - made in Germany give you the superpower to change everything:

The faithful companion for veterinary practices and clinics

„With the MELAG solutions for instrument reprocessing, we offer the highest protection for our faithful friends: the pets!“

Animalogic Veterinary Practice,
Spain

„Our top priority is our patients and their owners: that's why we rely on MELAG for reprocessing.“

AniCura Small Animal Specialists,
Germany

„The MELAG system solution enables perfect workflows for time- and cost-saving reprocessing.“

Clinica Veterinaria CMV,
Italy

Supersafe

Safety for your furry patients: Class B autoclaves with the fractional vacuum process provide the safest sterilization of all wrapped and unwrapped instruments - regardless of their type and complexity.

Steam sterilization compliant with EN 13060

Superstrong

More than enough power for whatever you plan to do: High loading capacities, fast cycle times starting at 16 min, and an effective vacuum drying guarantee that your instruments will be ready for use again very quickly.

Up to 6 kg on 5 extra-long trays

Supersmart

The intuitive user interface with a large Smart-Touch display makes everything easier: From program selection to documentation. With the help of process monitoring, you can provide complete proof of a successful sterilization.

Documentation via USB or network*

Superrobust

An autoclave should never fail: We make no compromises when it comes to reliability and develop under the highest quality requirements at our headquarters in Berlin.

100 % quality - made in Germany*

*Network capability as of 01.07.2023 (update can be performed independently by practice team)

Protects the environment. And your furry patients.

SteriHero Vet guarantees safe sterilization according to your needs with a wide range of programs.

But that's not all: The pioneering stand-alone device concept and the Power Save* energy-saving function make SteriHero Vet the cleanest solution - for your budget and the environment.

Programs	Vet-B	Quick-S	Quick-B	Gentle-B	Prion-B
Program specification	134 °C, holding time: 5.5 min	134 °C, holding time: 3.5 min	134 °C, holding time: 5.5 min	121 °C, holding time: 20.5 min	134 °C, holding time: 20.5 min
Operating times (at minimum to maximum load) **	24 – 31 min	16 – 20 min	24 – 27 min	39 – 47 min	37 – 48 min
Drying (time controlled)	20 min	5 min	10 min	20 min	20 min

* Power Save as of 01.07.2023 (Update can be performed independently by practice team)

** Times for Type-B programs for single wrapped load and Quick-S for unpacked load. Times may vary depending on the type and quantity of load.

Order no.	Device type	Chamber size	Chamber volume	Load quantity	Device dimensions (W x H x D)	Weight	Power supply	Documentation interfaces
ME10123V	Stand-alone class B autoclave (Compatible with additional water treatment unit)	ø 25 cm x 45 cm long	23 litres	6 kg instruments / 2 kg textiles	47 x 50 x 64 cm (device fits on a 60 cm table top)	49 kg	220 – 230 V / 50 – 60 Hz (2100 Watts)	USB, network (Network capability from 01.07.2023)
