

## evercare<sup>®</sup> inLine Extension line, Coiled, PVC-free

REF: 10539-01, 10540-01, 10541-01, 10542-01

evercare<sup>®</sup> inLine Extension Line is suitable for extension of infusion lines or can be connected to a syringe. Extension Lines are sterile, single use products that are used to conduct intravenous fluids and/or drug as an extension of the infusion & perfusion device by enabling connection to a source infusion and an infusion device with vascular access.

### Key Features

- ▶ Can withstand high liquid pressure up to 55 bar
- ▶ One male and female connector at each end
- ▶ Hydrophobic filter prevents leakage while priming
- ▶ Fixed luer lock
- ▶ Suitable for transportation and examinations

Male/female luer connectors	HDPE/LDPE, blue
Tube	LDPE, PVC-free, kink resistant
Purge filter cap	HDPE, light blue

## Warnings & Recommendations

### Warnings

The use of this product is restricted to a qualified doctor or nurse.  
Read the instructions before use. The device should be used in accordance with the instructions.  
The device is guaranteed sterile and pyrogen-free if the individual package has not been opened or damaged. Do not use if package is damaged or if protective caps are loose or missing.  
Do not over-tighten a luer beyond the friction fit as this may damage both the luer and another connecting device.  
Do not use any instruments for clamping the tubing or luer tightening.  
Re-use may lead to infection or other illness/injury.  
Do not leave open ports/hubs exposed. Replace sterile end caps, as necessary.

### Storage Recommendation

Recommended storage in clean, dry space between 15 - 25 °C. Products should be protected from direct sunlight, other intensive light sources and ozone.

### Disposal Recommendation

Dispose in accordance with local regulations.

### Shelf Life

5 years
