

# 25XL

Product Code:

## 5195XXXX

Our Sharpsafe containers are specifically designed to enable the safe disposal of clinical sharps and minimise the risk of associated injuries.

Our 25XL container is designed with operating theatres in mind to ensure the safe disposal of longer items used during procedures, such as endoscopy instruments. The container is also perfectly sized to store catheters.

Available with different lids for easily identifiable waste segregation and a number of compatible accessories for increased stability, security and safety.

Sharpsafe's new 5th Generation containers launched in 2022 and were the world's first full range of sustainable single use sharps containers. Engineered using ultra low carbon footprint recycled material showing our commitment to championing change.
