

Gripper Plus™

Port Access Needle

Safety Huber Needle

- › A safety port access needle to administer or withdraw fluids from implanted ports
- › Available in different sizes and lengths
- › Safety mechanism to be activated when removing the needle — audible click and visible engagement confirm that the safety arm is activated into locked position
- › Thick cushioned needle platform sits against the skin when in-situ
- › Removable contoured grip for easy insertion
- › Non-siliconized, non-coring needle
- › The 20 cm-long extension set is available with or without Y-site with removable injection cap on luer lock or needleless Y-site luer-activated needleless injection site
- › Extension set with color-coded clamp(s)
- › Priming volume 0.3 mL, 0.5 mL, or 0.8 mL depending on the extension set with or without the Y-site versions
- › Pressure-rated up to 45 psi
- › Positive ANTT evaluation
