Medica Brush®

A disposable scrub brush with sponge

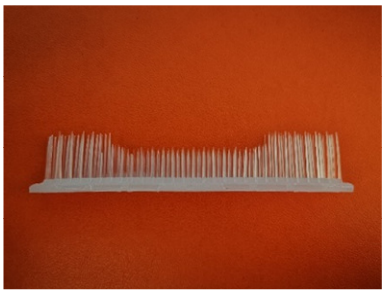

Medica Brush® is designed for cleaning:

- nails with the nail cleaner and
- knuckels with the sponge

A cross cut shows:

- the soft long hairs respect the skin and
- the short hairs are for perfect cleaning under the nails

Squeeze and release:

- squeezing the sponge ensures the brush to absorb more water for maximum cleaning

Manufacturing of the Medica Brush® is a fully automatic process which ensures a consistent quality in assembling brush and sponge
