

PRODUKTBLAD

Blod koaguleret 4oz / 120ml

Nasco Healthcare, SKU: 800-226

Coagulant Blood is used to enhance the realism of training simulations by creating thicker, coagulated blood effects during moulage and casualty simulation scenarios.

Product Details

- 4 oz bottle of simulated coagulant blood
- Creates realistic coagulated blood effects
- Ideal for moulage and casualty simulation scenarios

Training Applications

- Healthcare and health science education
- EMS and first responder training
- Disaster and mass casualty exercises
- Clinical and simulation-based training environments
