Pieces	190
Material	Banderole/Plastic
Height	150 mm
Width	213 mm
Length	80 mm
Volume	2.6 dm ³
Net weight	398 g
Gross weight	405 g

Transport unit

EAN	7322540759112
Pieces	3800
Consumer units	20
Material	Plastic
Height	213 mm
Width	400 mm
Length	600 mm
Volume	51.1 dm ³
Net weight	7.96 kg
Gross weight	8.43 kg

Tork Xpress® Multifold Hand Towel

Colour: Nature

Environmental

Content

Recycled fibres

Chemicals

Material

Recovered paper can be produced both from collected newsprint, magazines and office waste. The paper is washed with water and treated with chemicals under high temperature and then filtered. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important.

The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material.

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety. There are different methods used today for bleaching ECF (elementary chlorine free) where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view .

The used functional chemicals are:

Wetstrength agent

Dye = if coloured

The process chemicals are:

Antipitch

Protection agent

Yankee coating

Defoamer

Dispersing agents and surfactants

pH and charge control

Retention aids

Drainage aid

Packaging

Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes

Food Contact

This product fulfils the legislative requirements for Food Contact materials, confirmed by external certification performed by a third party. The product is safe for wiping food contact surfaces and may also come occasionally into contact with foodstuffs for a short period of time.

Tork Xpress® Multifold Hand Towel

Colour: Nature

Environmental label = EU Ecolabel

This product is approved for the EU Ecolabel.

Date of issue 2014-10-07

Revision date 2014-10-07

SCA Hygiene Products AB, Bäckstensgatan 5, 405 03 GÖTEBORG, Sweden

Production

Material produced and converted at Nokia mill, Finland, certified according to ISO 9001 and ISO 14001.

Destruction

HAND TOWEL is mainly used for personal hygiene and can be collected together with household waste.
