PROCARE®

Squared Toe Post-Op Shoe

Squared Toe Post-Op Shoe

The Squared Toe Post-Op Shoe addresses the immobilization and protection needs of patients who undergo forefoot procedures and trauma. Patients gain a high level of confidence - with maximum protection and comfort.

Indications

- Post-operative treatment of Hallux Valgus, Toe Deformities, and a variety of protocols where maximum immobilization and protection of the forefoot are required

Features & Benefits

- The Squared Toe Post-Op Shoe allows dressing to be kept clean and toes dry, providing more protection following post-operative procedures
- The square toe design provides additional room and comfort for the patient. Keeps the foot in the proper location, and allows for ease of ambulation and pressure reduction
- Quality construction provides support and minimal movement of the foot while ambulating
- The rigid rocker sole design allows for ease of ambulation and the skid resistant sole provides traction
