

Ambu[®] aScope[™] 4 Broncho

Single-use. New possibilities.

"The ideal solution for a wide range
of bronchoscopy procedures."

New generation of bronchoscopes

Based on your ideas and requirements engineers at Ambu have continued to refine the performance of the world's first fully disposable bronchoscope platform.

Now - say hello to the Ambu® aScope™ 4 Broncho
A new single-use, high quality bronchoscope and our latest proof of ideas that work for life. The aScope 4 Broncho is always available when you need it and sterile straight from the pack, offering improved patient safety and workflow. It comes in three sizes in one system at no additional cost. It is designed specifically for bronchoscopy and the ideal solution for a wide range of procedures.

Smooth navigation

High bending angles and precise tip motion makes navigation easy.

High quality bronchoscopy

Clear and sharp images

The aScope 4 Broncho gives you clear visibility of the near and distal bronchial segments. The clear, sharp images and adaptive light control make identification of lung anatomy and navigation in the bronchial tree easy. Combined with a colour representation on the Ambu® aView monitor reflecting lung tissue colours, the aScope 4 Broncho offers high quality imaging for your bronchoscopy procedures.

Smooth and easy navigation

The high bending angles and precise tip motion of aScope 4 Broncho allows you to easily navigate into all segments of the lung. The high quality handle is designed with a shaped, rippled surface to give you a comfortable grip throughout the procedure. The lightweight and ergonomic design makes aScope 4 Broncho easy to use.

- aScope 4 Broncho Slim 3.8/1.2
Bending: 180/180
- aScope 4 Broncho Regular 5.0/2.2
Bending: 180/180
- aScope 4 Broncho Large 5.8/2.8
Bending: 180/160

Three sizes in one system at no additional cost.

High Quality view

aScope 4 Broncho connects to the Ambu® aView™, our portable, high-resolution monitor that is operational in seconds and intuitive to use.
