

PRODUCT DATA SHEET

LUOFUCON® Foam Dressing, which is EO sterilized, is composed of soft and highly absorbent polyurethane. It can bulkily absorb wound exudates and maintain moist environment, which accelerates wound healing. It is especially suitable for excessive exuding wounds.

Benefits:

- Various in forms, shapes and sizes;
- Highly absorbent (more than 10 times of fluid);
- Transmitting moisture vapour and oxygen and providing moist environment for would healing;
- Occlusive for bacteria proof;
- Comfortable and conformable.

Indications:

LUOFUCON® Foam Dressing is used for heavily exuding wounds, especially during the inflammatory phase following debridement and desloughing, when drainage is at its peak, including:

- Deep cavity wounds;
- Pressure ulcers;
- Leg ulcers;
- Donor sites;
- Lacerations and abrasions.

Storage

Store the product in a cool and dry place away from sunlight exposure. Recommended storage temperature 5°C - 40°C.

Shelf-life

3 years.

Batch numbering method: YY MM AAA

YYY- Year of production

MM- Month of production

AAA-Serial number of batch, based on annual production

Example: 201605087 - Manufactured 2016-05 as 87th batch in year 2016.

Compliance with Standards & Regulations

Products are in full compliance with following standards	
ISO 10993-5	Biological evaluation of medical devices – Part 5: Tests for in vitro cytotoxicity
ISO 10993-7	Biological evaluation of medical devices – Part 7: Ethylene oxide sterilization residuals
ISO 10993-10	Biological evaluation of medical devices – Part 10: Test for irritation and
ISO 11607-1	Packaging for terminally sterilized medical devices – Part 1: Requirements for materials, sterile barrier systems and packaging systems
ISO 11135	Sterilization of health-care products -- Ethylene oxide -- Requirements for the development, validation and routine control of a sterilization process for medical devices
