

CareFusion ECG recording papers

Our thermally sensitive chart papers are available in a wide variety of formats. They offer a bright-white quality paper stock for excellent trace legibility. The paper's weight is designed to flow easily through the printer. Most importantly, our ECG recording papers are the validated papers for your GE Healthcare equipment.

When high quality papers with up-to 25-year archival are vital to your operation, our papers can meet your needs. CareFusion ECG chart paper features and advantages:

- Comprehensive line for cardiology, patient and fetal monitoring.
- Validated for use with GE Healthcare equipment.
- Many papers are available in multiple formats.
- Features a warm red or green grid for superior trace readability.
- Multiple versions of fetal charts are available with a variety of BPM scales.
- End-of-roll and -pack indicator reminds users to change paper.
- Carton and paper stiffeners, where included, are manufactured with recycled materials.
