x & xx = any given number
according to specifications for
type of lid, colors and labels.

Product information

The Grand series is designed for an everyday safe work at a hospital or healthcare establishment. It is used for a large amount of clinical waste. The thick plastic material is resistance to penetration and makes the container safe to handle. You can open and close the large lid with a simple grip with one hand. All sizes are stackable both empty and full. Grand has a visible fill line that indicates when the container is full.

You have two lids to choose from; the grip lid which has an integrated handle and the click lid which has an extra opening for smaller waste. The latter one is able to be locked both temporarily and permanently. All containers can be placed in a trolley system which allows easy moving when needed. All sizes are fully autoclavable and equipped with handles in order to help the transportation. The available sizes are 30 litres, 50 litres and 60 litres.

Key Benefits

- UN and ADR approved
- Stackable both empty and full
- Marking for maximum filling level
- Autoclavable
- The lid can be sealed either temporarily or permanently
- Manufactured in environmentally friendly PP
- Extra wall thickness to prevent piercing

Main characteristics

Available sizes: 30, 50 and 60 litre

Standard coloring: Yellow

Material: PP Copolymer

Environmental Compliance

REACH - Registration, Evaluation, Authorisation and restriction of Chemicals

REACH (EC/1907/2006) is the European Community Regulation on chemicals and their safe use, in force since 2007. REACH is a regulation and therefore directly applicable throughout all EU Member States. It does not require transposition into national laws of Member States.

Safebox comply with the restrictions laid down in REACH.

Accessories

Descripton:
Trolley in aluminum
2 wheel/4 wheel
