MediSafe SOLO

Product features

Comfort MAX

CE 0344

Simple to use.
Concave top button for comfortable thumb activation. Wide & long safety cap for easy removal. V-shape design for convenient finger position. 2-step operation. Intuitive use. No lancet reloading required. Minimum training for new users.

Efficient.
Precise design and geometry of the needle provides ideal blood sample collection.

Sterile. Needles are sterilized with Gamma irradiation and protected with a safety cap.

Safe. Single use. Additional self-activation prevention system. Multiple sticks eliminated.

Patient-friendly.
Ultra sharp, thin needle. Electropolished and silicone-coated. High speed of penetration. Low puncture force.
